## HARDING IS GIVEN HEARTY WELCOME

Appears in Senate and Makes Short Speech

Pledging His Co-operation With Congress

Sixty-sixth Congress Begins Final Session Monday

(By Associated Press)

Washington, December 6.—The third and final session of the Sixty-sixth Congress began today with President-elect Harding in his seat in the Senate.

The galleries began to fill early in the day and were crowded when the gavel of Vice President Marshall and Speaker Gillette fell at noon.

Senator Harding was given a round of applause as he entered the Senate chamber just before noon. Spectators rose all over the galleries to obtain a better view of the President-elect who entered from the cloak room with Senator Lodge, Republican leader.

Mr. Harding was surrounded by a crowd of senators who shook his hand and clapped him upon the back. The President-elect welcomed his admirers with a broad smile.

Senator Harding spoke briefly and the Senate then adjourned without transacting any business, to await a communication from President Wilson.

A day of co-operation and friendly relations between the White House and Congress was forecast by President-elect Harding in his short address from the floor of the Senate.

Though disclaiming any desire to criticize the present administration, Mr. Harding declared it one of the ambitions of his four years as chief executive to insure better team work between the two branches of the government.

The speech, which did not touch on detailed questions of policy was delivered by the President-elect in response to an ovation that greeted him when he went to the Senate chamber in his capacity as a senator and answered to the opening roll call of the new session.

Senator Harding rose to speak after Senator Lodge of Massachusetts, the Republican leader, had called attention formally to his presence, and asked that he be recognized by the Vice President.

"I am pleased at this greeting by fellow members of the Senate," said Mr. Harding.

"There is still greater satisfaction in having the opportunity of saying to you informally some of the things in my heart which I could utter in no other way. I recognize I am here today under somewhat unusual circumstances and there is a delicacy about it that one in my position cannot escape except through some form of self-effacement which does not seem quite possible.

"No member of this body could be more reluctant to leave it. I might say that I came here with high respect for this body and am leaving it with greater respect. If one could only direct his own political fortunes to his liking, I should have preferred my membership here to any others a citizen may hold in this republic or elsewhere in the world."

## GREECE WILL GET NO MORE LOANS

Farical Plebiscite Favors Constantine by Big Majority

Britain and France Act Promptly Withdrawing Financial Aid

(By Associated Press)

Athens, Greece, December 6.—Great Britain will extend no further financial aid to Greece in case former King Constantine returns to the throne, according to a note presented the Greek government today by Earl Granville, British Minister in this city.

The French Minister also presented a note to the government demanding the payment of outstanding loans.

Both notes forbid the issuance by the national bank of paper money already printed against a loan of 400,000,000 drachmas, which was arranged during the regime of former Premier Venizelos.

## FAVOR RETURN OF FORMER KING

(By Associated Press)

Athens, Greece, December 6.—Returns from the plebiscite held throughout Greece yesterday, which was to decide whether the Greek people would recall former King Constantine to the throne made vacant by the death of his son, King Alexander, appeared to indicate an overwhelming majority in favor of Constantine resuming power as King.

The vote is being counted merely as a matter of formality, for the plebiscite was considered farcical in the city and in the country at large.

Reports from the nation generally already indicate a majority of 500,000 in favor of the return of Constantine.

## POSTPONE ACTION ON ARTICLE TEN

Argentine Criticized On All Sides For Hasty Action

Lord Robert Cecil Points Out Danger of Similar Action.

(By Associated Press)

Geneva, Switzerland, December 6.—Consideration of an amendment to the covenant of the League of Nations which would eliminate Article Ten has been postponed by the Assembly of the League of Nations until the next meeting.

The resolution of the Argentine delegation providing all sovereign states, unless they remain outside of their own will, shall be recognized as members of the League, was the first item on the agenda of the Assembly today.

After today's session had opened, Paul Hymans, the president expressed personally to the head of the Argentine Mission his deep regret at the step it had taken.

Lord Robert Cecil, delegate for the Union of South Africa, then took the floor, saying:

"If other delegations would be allowed to take the same step when their proposals are not accepted, it would be impossible for the League to make any progress."

It is declared here that virtually every delegate regards Argentina's action as an error in tactics.

## AMENDMENT REFERRED FOR NEXT MEETING

(By Associated Press)

Geneva, Switzerland, December 6.—Argentina's amendment to the covenant of the League of Nations, rejection of which caused the delegation of that country to leave the Assembly Saturday morning, has been referred to the Assembly for consideration at its next meeting.

Honorio Pueyrredon, head of the Argentine Mission, told the Associated Press today his delegation would leave for Paris on Wednesday or Thursday.

## INFORM WILSON SOLONS READY

President Greets Congressional Committee in Blue Room

Remains Standing, Cuts Meeting Short After Lodge Speaks

(By Associated Press)

Washington, December 6.—President Wilson did not indicate today to the congressional committee whether he would address Congress tomorrow in person. He simply told the committee, headed by Senator Lodge, that came to inform him Congress was in session that he would "communicate with Congress."

The President received the congressional committee standing in the blue room. Former Speaker Champ Clark said the President walked into the room "briskly" but with a cane.

Senator Underwood of Alabama, the Democratic leader in the Senate, described the President as being "in very good spirits" and as looking "very well."

The impression taken away from the White House by the five members of the committee, Lodge, Underwood, and Representatives Mondell, Fordney and Clark, was that the President would not address Congress in person but would send his message to be read.

The President did not shake hands with the members of the committee. After the Senators and Representatives had assembled in the blue room the President came from the adjoining room and stood just inside the doorway. Greetings were exchanged and the President announced he would communicate with Congress tomorrow.

Representative Mondell said the President as he entered the blue room remarked that it was "necessary to use his third leg." Senator Lodge of Massachusetts, the Republican leader, who led the fight against the peace treaty, acted as spokesman for the committee.

Members of the committee said that the President carried his cane in his right hand and held his left hand against his chest while he saw the committee. One of the visitors said the executive's voice was "hollow and low" and that the committee members had difficulty in hearing the few words he uttered.

## RUMOR SAYS TIGERS TO HAVE GRANDSTAND

Report From Jeffersonville Says That Players of Prominence are Being Signed for Next Season—Hieronemus is Included

A baseball rumor, seemingly not of stove league origin comes from Jeffersonville to the effect that the Jeffersonville Tiger baseball club will have an improved baseball grounds next spring when the season opens.

It is understood that a permanent site is being considered on which will be erected a grandstand and bleachers of suitable capacity to handle the large crowds which always attend the Tiger games.

At the majority of games at Jeffersonville last season the attendance

was over a thousand and there is but little doubt that it would have even surpassed these remarkable figures if accommodations had been provided.

Also it is understood, that the Jeffersonville club is signing its players for the 1921 season and that the players enrolled on the club roster are well known in semi-pro circles. To all reports Willis Hieronemus will again be the hurling mainstay of the Club.

## Heat your home with oil

Nokol in hot water boiler

You can install a Nokol automatic oil burner in your present furnace whether it is hot air, steam or hot water. Nokol burns oil instead of coal. It burns with an intense, white, hot flame which leaves no ashes, soot, smoke or odor whatever.

The absence of coal and its dust frees your leisure hours of dirty basement jobs, allows your furnace to work better and assures you a clean, healthy home.

## Furnace tends itself

All you need to do is set the living room thermostat at the temperature you want and Nokol will automatically maintain it.

The moment the temperature falls below the normal point Nokol automatically ignites and brings it up again; if it goes above, Nokol ceases action.

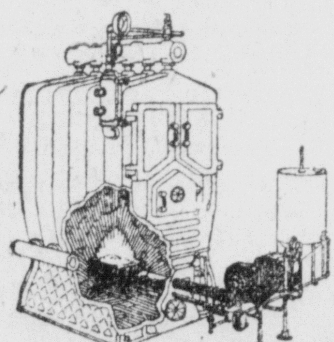

Thus Nokol burns oil only when heat is needed.

## Going to Europe

Speaking to a gathering of business-men and women in Boston on Friday Herbert C. Hoover, formally opened a nation-wide campaign to raise \$23,000,000 from the American people for the relief of three and a half millions of youthful sufferers by the war in eastern and central Europe.

The noble and generous impulses of the American people are quick to respond to the appeals of those of the less fortunate throughout the world. They have been generous in giving to aid the people of Europe. Our government officials have been prodigally generous in the extension of loans to European nations and there are few indeed among the American people who would consider withholding charity from the needy.

With it all, however, all that has been done and all that is proposed, it seems so much of a leap in the dark proceeding that people are beginning to desire a little more business-like methods adopted, a little more certainty.

It seems time now, more than two years after the end of the war, that our affairs with European nations and peoples be put into some order. It is time that we deal with recognized official authority and operate under definitely prescribed diplomatic form.

If the people of Europe are as needy as Mr. Hoover, who conducts these campaigns, says they are, and there is no apparent reason to doubt his statements, had not we as a nation better agree first on diplomatic relations and place our charities, so tremendously costly, upon a more satisfactory basis than dealing with unofficial individuals both in giving and the receiving end of the line?

We have our own affairs now to look after, our own foodstuffs to raise and our own supplies to conserve and the best thing we can do is to place our charity extended to European sufferers in official hands and under the restraint of diplomatic agreements—first of all.

During war time there was need for voluntary individual effort—but not now. Governments are functioning.

## Senator Capper's Discovery

One cannot help, in spite of experience, in being a little bit puzzled about the spectacular announcements of Senator Capper regarding the method of operation and the menace of the Chicago grain market speculators and the need for remedial legislation which will do away finally with an institution which, by gambling in margins and futures, places a fictitious price on foodstuffs regardless of the laws of supply and demand, and high or low, as one or the other of the two factions happens to be in control of the "trading."

Senator Capper seems to be sincere. Probably he does honestly believe that he can prevail on Congress to break up the ring of speculators which fixes prices of foodstuffs. The fair thing is to give him the benefit of the presumption of innocence and to wish him well.

There are features, however, about the Senator's announcements which would give basis for the doubtful ones to suspect that he also is only playing a little spectacular politics.

It can't be possible that he thinks he is the first to discover the Chicago methods or that he is the first to denounce those methods, point out the menace of them and seek to do away with them. He certainly can't think that and yet he talks as though he had discovered something new.

Why, way back yonder in the eighties "Old Hutch" and Joe Leiter, following in the footsteps of those who had operated years before, were cornering wheat, making millions for themselves and converting the American farmer into a goat, and their successors have been at the same work ever since.

Congresses have come and gone but the speculators go on their way forever.

While we wish the enthusiastic Senator Capper well and are going to presume him sincere in purpose he can, if he will, set it down that no politicians are going to put the speculators out of business. That's the farmers' job.

## POETRY FOR TODAY

THEY HAVE COME INTO  
THEIR KINGDOM

Time was we feared the Dead alas!  
In the incredible days long gone  
The patient dead beneath the grass  
Lying alone, dreaming alone.

But now the Dead have come alive,  
Gayer and brighter than the Quick,  
Laughing and radiant they arrive.  
To lift the mortal world grown sick.

Time was we feared some churchyard thing  
That passed when life was low and chill,  
These are not ghosts, fleet as a wing,  
With wonderful young eyes laughing still.

And now our shadows are made bright  
For the beloved faces gay,  
These stars upon our blackest night,  
With whom 'tis always Day—and May.

Oh we are in the night and cold,  
And they are warm in the great sun,  
Who slipped so soon our mortal hold,  
So light, so quick the young feet run.

Now to the kingdom of the Young  
We reach out of the rain and dark,  
Hearing far off the children's song,  
Blithe as the lark, fresh as the lark

## POLISH TOWNS ARE CHILDLESS DUE TO STARVATION

New York—Babyless towns thickly dot the forlorn landscape of Poland and in many of them there are no longer any births, declared Dr. Herschel C. Walker, chief of the American Relief Administration, who recently returned from that country. He supervised the distribution of American food to Polish sufferers.

All of the infants born in the stricken areas in the last two years succumbed to starvation and the diseases it introduces, or they have been removed to places where they can be properly fed, Dr. Walker said.

Hundreds of houses that once echoed a baby's laugh are gone, and whole families lived in squalid dugouts without light or ventilation.

Some mothers have kept their children alive on grasses and roots made into thin, tasteless soup. Hunger brought the slaughter of cows by the wholesale, and milk can be had now only by the wealthy.

These conditions precluded maintenance of the ordinary birthrate, but other sufferings have obliterated it almost entirely in parts of Poland, said Dr. Walker. Homes have passed away with the departure of both men and women for service in the army. Emaciation of the women and the prevalence of misery on every side has made impossible or forbidden the bringing of children into a world in which only hunger, sickness and early death appear to await them.

The stone was believed to be a magnificent aquamarine, but proved on examination to be only a piece of colored glass. It figured first in the crown of King James II. The mystery of when the imitation was substituted for the real stone has not been solved.

The hour for serving at the Business Women's Luncheon, Tuesday at the Y. W. C. A. has been changed from 11:30 to 1:00, to 11:15 to 12:30, the new schedule to go into effect Tuesday of this week.

That the public is becoming interested in these lunches has been shown by numerous contributions—a most appreciated one, a twenty-five dollar check from a local business man. Other welcome gifts have been glasses of jelly and cream.

Notwithstanding the inclement afternoon, thirty-five guests were delighted with the excellent program given by fourth grade pupils at Miss Stinson's studio, Saturday afternoon. Most of the pupils presented, being recently promoted to the fourth grade made their finished and artistic playing of the different numbers doubly appreciated.

After close consideration, Dorothy Donohoe, Margaret Gibson and Helen Rodecker were recommended for the Honorary Recital, which will be given the night of December twenty-eighth.

Nearly one hundred men and women, including both the salesman of the local branch of the Dahl-Campbell Company, the Chillicothe branch, and their wives honored Mr. and Mrs. A. F. Kyte with a dance, Saturday evening, at the Club rooms in this city.

There was an informal reception preceding the dance Mr. William Campbell and Mr. Charles Lewis received with the popular honor guests, who have been quite feted since their recent marriage.

The Columbus quartet had been engaged for the occasion, and played a program of all the latest dance hits, responding freely to encores.

A particularly delectable lunch was served in the adjoining room to the dance hall. Pink chrysanthemums with an electric grill and iron by the tables.

Mr. and Mrs. Kyte were presented with an electrical grill and iron by the local employees.

A program of rare interest was given by pupils from Miss Light's class on Saturday afternoon at her Circle avenue studio.

The program was of wide range including selection from the severe classics and present day composers.

A concluding recital for the full term will be given next Saturday afternoon to which the parents and friends are cordially invited.

Mrs. Will Palmer gave delightful entertainment to fourteen little girls, Saturday afternoon, the occasion being the ninth birthday of her daughter Jo.

Various games were played and there were a number of contests, Mary Ann Story and Inez Bannion winning the prizes in the animal contest Marjorie Dorn and Ruth Schadel in the peanut hunt.

Mrs. Palmer was assisted by Miss Ruth Dorn in entertaining and serving delicious refreshments.

Enjoying the afternoon with the pretty little honor guest were: Lillian Cox, Ruth Schadel, Florence Christian, Marjorie Penn, Mary Katherine Sander, Ramona Short, Inez Bannion, Mary Louise Mark, Florence Mabel Sparks, Dorothy Wilkins, Mary Ann Story, Virginia Kerns and Marjorie Dorn.

Mr. and Mrs. George Sturgeon and son Billie had as their guests at dinner Sunday, Mr. and Mrs. T. N. Wain, Mr. and Mrs. Harry Buchanan and little daughter, Mr. Kenneth Wain, Miss Helen Conner, and Mrs. Jennie McDole.

Mr. and Mrs. L. F. Thomas entertained with an enjoyable dinner Sunday noon, at their home on Washington avenue.

Seated with Mr. and Mrs. Thomas were: Mr. and Mrs. Seymour Thomas, Mr. and Mrs. Harry Beal, daughter Mary Vivian of Mt. Sterling; Mr. and Mrs. Walter Downing of Circleville; Mr. and Mrs. C. G. Campbell and daughter Dorothy, Mr. and Mrs. Wiley Campbell of Atlanta; Mr. and Mrs. Ralph Thomas and Mr. Frank Johnson of this city.

After two years of peace the dancing craze seems to have a greater hold than ever upon the people of London.

When Tommy Atkins came home from the war, strenuous and nerve-racking as no war ever had been before, he felt a natural desire to obtain relief from the strain, and he found it in dancing.

The girls of London eagerly joined the boys in this pleasure, their nerves, too, having been put to a severe test by hard work in war factories, air raids of the enemy and the suspense over the outcome of the terrific conflict.

Thus in the days following the armistice London was converted into an immense dance hall.

And so it continues, without regard to age.

Nearly everybody in London and the suburbs is dancing—young men and old men, girls, elderly spinsters and matronly women. If you don't dance you feel rather out things, although you may get a good deal of amusement from watching.

There do not seem to be any morning dances in public halls or clubs or hotels. But you can start early in the afternoon or immediately after lunch. In fact, it is no uncommon thing at restaurants and dance clubs for a couple to have a dance between courses.

At one West End hotel the other night the dancers were given huge paper poppies mounted on staffs. As the dancers away the room looked like a windswept flower garden.

A new "favor" consists of a short quill feather or a paper Japanese doll attached to a burr. A man with a few quills clinging to his hair like the trefle or porcupine looks absurdly amusing.

Balloons, fancy hats, paper crowns and the like all have their innocuous use. They bring a relaxation and conviviality. It is impossible for the most haughty of persons to remain haughty wearing undignified paper headgear or with a gayly colored balloon fastened to the finger and bobbing frivolity before one's eyes.

"Miss Grace G. Gardner's beautiful luncheon at the Woman's Club on Tuesday in honor of Mrs. H. H. A. Beach, led off the round of entertainments for this charming and gifted American composer, and none exceeded it in interest and spontaneity. Miss Gardner, who belongs to an old and well-known family of Hillsboro was educated abroad, where her own career as a talented soprano began. She was therefore able to meet her guest of honor on her own ground, and to introduce hers most agreeably to a dozen friends about the sparkling luncheon table in the Woman's Club tea room. At the reception after Mrs. Beach's recital, Miss Gardner was one of those who presided at the teatable, decorated in the club's beautiful silver, an occasion of special interest and importance."—Cincinnati Enquirer.

The first of the numerous Red Cross Hygiene classes has completed the work and certificates will soon be issued from the Lake Division headquarters at Cleveland within a short time. The final examination was held Thursday of last week.

The first class to finish, known as the Monday and Thursday afternoon class, included the following women: Miss Edith Gardner, Mrs. Carrie Deere, Mrs. Elva Kelley, Miss Margaret Clark, Miss Margaret McDole.

old, Mrs. Estella Blackmer, Miss Jean Howat, Mrs. Alice Adams, Miss Mary Craig, Mrs. Susan Pitt, Mrs. Florence Garrett, Mrs. Mattie McCoy, Miss Prudence Culhan, Mrs. Marie Johnston, Miss Bess Cleveland, Mrs. Gertrude Bayhan.

Campbell, Grandmother, Mrs. Ellen Campbell, and Mr. Blanchard Carr, principal of the Eber School, where she is enrolled spent Friday in Columbus, attending the first Junior Thrift Congress, ever held in the United States. After the meeting at the State House the Senators returned to the Hotel, where they were entertained at dinner, and Keith's afterwards.

## GAINED 26 POUNDS SINCE TAKING FIVE BOTTLES DRECO

Ten weeks ago was weak, thin, pale, nervous, stomach out of order and body full of rheumatic pains. Claims this great root and herb medicine, produced marvelous changes.

"This is my sixth bottle of Dreco and I want to say it's wonderful what this medicine has done for me," said Mr. K. E. Clingan who lives at the corner of Downey and Grant Streets, Piqua, Ohio and is well-known and highly esteemed.

"Ten weeks ago I had rheumatism in every joint and muscle in my body. I was full of pain. My stomach was badly deranged so that my food did me no good; seemed it wasn't strong enough to extract the value out of what I ate and furnished the nourish-

ment of my system. I had lost a lot of weight, was nervous, pale and weak. My sleep was broken and I didn't care to eat at all.

"But look at me today since taking Dreco. I have gained 26 pounds in actual weight have a big appetite, and my stomach digests everything I eat. My nerves are steady so that I sleep sound and every rheumatic pain is gone. Dreco is a wonderful medicine and certainly has my strong endorsement."

Dreco acts on the vital organs and aids them to perform their duty as Nature intends, that is why Dreco results seem so marvelous and also why the results are permanent.

All druggists now sell Dreco and it is being especially introduced in Washington C. H. by Frank Christopher.—Advt.

# SUBURB THROWN INTO A PANIC

Shells on Vessel Explode and  
Terrorize Citizens of Brook-  
lyn Suburb—Four Hurt.

(By Associated Press)  
New York, December 5.—  
Hundreds of homes in the  
Fort Hamilton section of  
Brooklyn virtually were un-  
der heavy artillery bombard-  
ment this afternoon result-  
ing from intermittent explo-  
sions of six-inch and ten-  
inch shells on a steam light-  
er, which caught fire while  
moored to the army reserva-  
tion pier.

Gathering together their belongings  
in a belief that the naval arsenal at  
Fort Lafayette, a small island near  
Fort Hamilton, was ablaze, terrified  
scores fled their homes for safer zones  
driven to frenzied haste by the series  
of detonations, which were heard for  
miles around.

In official statement from Fort Ham-  
ilton tonight said no lives had been  
lost and only four persons were in-  
jured and these but slightly.

The lighter laden with 900 shells  
for shipment to Boston, was torn from  
its mooring by the violence of the first  
explosion about 5:40 p. m. Two men  
were on board but they escaped.

## FIND STOLEN CAR NEAR THIS CITY

An Overland touring car, belonging  
to M. L. Matthews, of Greenfield, was  
found abandoned on the Good Hope  
pike, near the D. T. & I. railroad  
crossing, Monday morning, and  
brought to this city by Deputy Sheriff  
Nelson.

Mr. Matthews, when called, was sur-  
prised that the car should be found  
near this city, saying his son had left  
it at the residence of Jess Mossbar-  
ger, near Harpers Station.

An investigation is being made to  
ascertain who stole the car.

## PERFORM OPERATION TO REMOVE FINGER

An injury received several weeks

ago caused the amputation of the lit-  
tle finger on the right hand of Oliver  
Tharp at the Ireland and Brock offices  
Monday morning.

He had the finger torn in a belt  
while operating a piece of farm ma-  
chinery and was in the Fayette Hospi-  
tal several days for treatment  
when blood poisoning developed. He  
was later removed to his home.

When it began to give him serious  
trouble an operation was believed  
necessary and the amputation was  
successfully completed.

Tharp is employed by Glenn Wilson  
near this city.

## SPECIAL SERVICES GROW IN INTEREST

The revival services at the Church  
of Christ continue to grow in inter-  
est. Three great services Sunday  
were marked by large attendance.  
Thoughtful sermon and good singing.  
More than half a score united with  
the church during the evening.

The service Sunday evening began  
fifteen minutes before the time  
announced, owing to  
the fact that the house was filled at  
that time. Scores were unable to  
gain admittance and were turned  
away. Mr. Eddins led a choir of half  
a hundred and made the singing one  
of the inspiring features of the even-  
ing.

Dr. Thompson took for his subject,  
"The Moral Man" and preached one  
of the best sermons he has delivered  
in the entire series.

Th house was filled Saturday night  
when the special service of the child-  
ren was given, under the direction of  
Mr. Eddins.

The subject Monday evening is  
"The Fool's Death."

## BLOOD POISON PROVES FATAL TO ISAAC LOSEY

Small Wound Caused By  
Horn of Steer Becomes In-  
fected And Death Results.

After suffering two days in the Pay-  
ette Hospital with a severe case of  
blood poisoning, Isaac L. Losey, 62  
died at a few minutes before ten  
o'clock Sunday evening.

The body was removed to the Mc  
Coy Undertaking rooms and prepared  
for burial and Monday afternoon was  
taken to the home on the Eymann  
road.

Several days ago Mr. Losey was  
feeding cattle when one of the steers

## PROBE RUMORS CAUSE COAL PRICE TUMBLE

Youngstown, O., December 4.—A  
further cut of 25 cents a ton was made  
in coal prices here today when dealers  
announced \$8.50 as the price of lump  
coal. This came as an aftermath of  
the federal probe into coal prices in  
this city which ended today when the  
investigators left without making any  
report their findings. The price of

coal was dropped \$8.50 on the day be-  
fore the probe started from \$10.00 to  
\$13.00 per ton for best grades of lump  
coal.

It is believed that evidence gathered  
here will be presented to the federal  
grand jury.

Local dealers declare they are un-  
able to buy from the mines direct,  
stating that the operators refer them  
to brokers for their supplies. This  
phase of the situation was delved into  
deeply by the department of justice  
operatives and promises startling re-  
sults. There is a good supply of coal  
on hand.

(By Associated Press)

Blondell, a chauffeur, was killed and

robbing Creed Robinette, and agent  
merchant of Appalachia.

another mob was being formed at Ap-  
palachia. A machine gun has been

## SINN FEIN HEAD PUTS TRUCE UP TO LLOYD GEORGE

(By Associated Press)  
Dublin, December 5.—The Rev.  
Michael O'Flanagan, acting president  
of the Sinn Fein, has sent the follow-  
ing telegram to Premier Lloyd George:  
"You state that you are willing to  
make peace at once without waiting  
for Christmas. Ireland also is willing.  
What first step do you propose?"

A Christmas truce in Ireland was  
suggested by Roger N. Sweetman, a  
Sinn Fein member of Parliament, who  
recently urged that advantages be  
taken of the English Labor Commis-  
sion's visit to Ireland to bring about a  
conference between the commission  
and the Irish Labor Party, the Irish  
Peace Conference and the Catholic  
hierarchy to enlist all moderate opin-  
ion in Ireland in support of Cardinal  
Logue's appeal for a "Truce for God."

## HILLSBORO TO GET TWO DOLLAR GAS

By action last week the State Public  
Utilities Commission has fixed the  
price of artificial gas for Hillsboro at  
two dollars per 1,000 feet.

The question of fixing the gas rate  
in that city came up when the arti-  
ficial gas company suspended opera-  
tions and the determination of ser-  
vice and rates was put up to the Utili-  
ties Commission. After full inquiry  
and investigation by the Commission  
the rate of two dollars was set as fair  
to both consumers and manufacturers.  
It is noted in this connection that  
the proposed gas rate for Wilmington  
is \$2.60. Conditions in these two  
cities are somewhat similar, it is pointed  
out.

### B. P. O. E. HOLDS COMMEMORATION

Tribute Paid To Thirty-seven Honored  
Dead Of Order In Annual Service.

Services of solemn impressiveness  
held Sunday afternoon at two-thirty in  
Elks Hall marked the annual Memorial  
Service of the B. P. O. E.

Leading Knight Arthur J. Burgett de-  
livered the address of the afternoon  
in which he eulogized the standards of  
the Order and the benefits derived  
from association in a fraternal or-  
ganization of that kind.

Knight Burgett's address was of  
high inspiration and delivered in ex-  
cellent manner.

A quartet composed of Misses Ada  
Woodward and Maxine Kibler, Messrs.  
Rankin Paul and R. R. Kibler, with  
Mrs. B. E. Davis at the piano, gave  
several much appreciated selections.

Secretary of the Order, Charles A.  
Gossard read the names of the hon-  
ored dead, thirty-seven in number.  
Two have been added to the list dur-  
ing the past year, Dr. O. D. Maddux  
and George W. Sheets.

The services were presided over by  
Exalted Ruler R. R. Kibler.

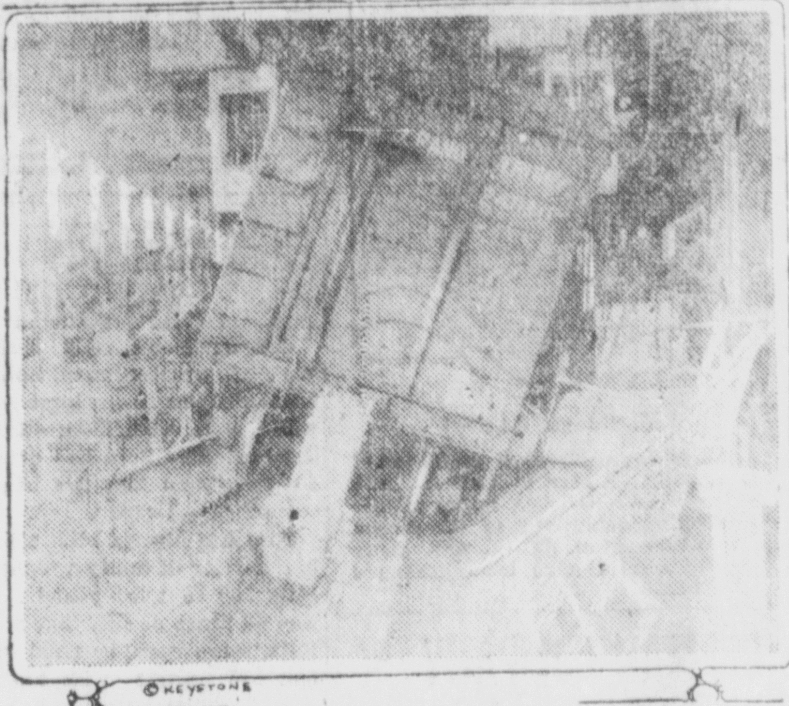

A vocal duet by Misses Woodward  
and Kibler, "Whispering Hope," closed  
the service.

### NEW DEVICE DUMPS 40 CARS OF GRAIN INTO BINS OF ELEVATORS IN AN HOUR

A car being tilted to dump wheat.

One of the latest time and labor saving devices designed for ship-  
pers and receivers is a swinging track onto which a car of grain or  
other loose material can be run and then tilted at such an angle that the  
contents will run out the side door into bins beneath the track. The  
photo of one of the new devices tipping a car was taken in the Pennsylv-  
ania railroad grain elevator at Baltimore.

### SPECIAL MESSAGE FOR THE CHURCHES GIVEN OUT SUNDAY

There was sent out from the Ohio  
Public Health Association by the  
Christmas seal committee a special  
message to ministers and pastors  
which they presented from their pul-  
pits Sunday.

It emphasized the fight which civil-  
ization must make against one of  
its greatest enemies, tuberculosis. It  
read:

"Tuberculosis from the dawn of  
civilization to the present day has  
been one of the worst scourges of  
mankind. It is a disease more deadly  
than war.

"One hundred and fifty thousand  
persons die annually in the United  
States from Tuberculosis.

"Sixty-five hundred died from the  
disease in Ohio last year.

"It is impossible to estimate what  
tuberculosis means to the world in

deprivation, anguish, grief and de-  
generation.

"In recent years science has dis-  
covered the cause of this disease  
and progress has been made in the  
campaign which is steadily waged  
against it—a campaign of education  
in which the pulpit and press have  
contributed in a very large measure.

"The death rate from tuberculosis  
has fallen in the country since 1901  
from over 200 per 100,000 population  
to approximately 145 per 100,000. A  
rate of 122 per 100,000 population in  
Ohio last year is the lowest on re-  
cord.

"The campaign against tuberculosis  
is financed largely by the sale  
each year just before  
Christmas time of Christmas seals,  
at a penny apiece. They help  
to spread the gospel of good health.

A word from you to your congre-  
gation concerning the Christmas seal  
sale will help immeasurably and will  
be greatly appreciated by those en-  
gaged in carrying on the fight. Seals  
on sale December 1. Sunday, Dec-  
ember 5th, is the date set for empha-  
sizing the seal sale in the churches."

Winter Brings Many Ills to Pale,  
Overworked People

#### TAKE PEPTO-MANGAN

Fertify Your System—Good Blood  
Will Give You New Strength  
to Keep Well.

If you feel the least bit run down,  
not necessarily sick, but tired and  
blue and sort of down and out, it  
shows plainly that your power of re-  
sistance is low.

It is dangerous to go around that  
way. You don't want to do it.

Make no mistake about it, when  
you feel yourself slipping into lazy  
habits, getting indifferent to the  
things you naturally like—no energy,  
no vigor, always tired—it is time to  
look out. It may not mean that you  
are sick or that you will be. But there  
are diseases that would have an easy  
time of it with your system when  
your blood as no fighting qualities.

You want to be well and keep well  
and feel strong. If you build up the  
quality of your blood by taking Pepto-  
Mangan you will be in trim to  
fight off winter ills. It has just the  
right ingredients to build your blood  
up with rich red corpuscles.

Pepto-Mangan gives your blood the  
qualities it needs to pick you up and  
start you off on a healthy basis. You  
will notice the difference soon after  
you start taking it. You will have  
better color, better feeling and more  
energy.

You can take it in liquid or tablet  
form as you prefer. Both have the  
same ingredients. But be sure you  
get the genuine Gude's Pepto-Man-  
gan. Ask for it by that name—  
"Gude's Pepto-Mangan" and be sure  
the full name is on the package—

### MANY COMPLAIN OF WORN OUT MONEY USED BY CUBANS

Havana, (By Mail)—Americans in  
Cuba have joined Cuban bankers and  
business men in making fresh com-  
plaint of the worn out money in cir-  
culation here. Except silver, the only  
currency in use is American. It has  
been changing hands so often that it  
is tattered almost beyond the point of  
recognition, and health experts have  
declared that much of it is a public  
menace.

Bills that once were green now are  
brown and yellow. The edges are  
frayed and the best small bills obtain-  
able even from banks is so frightfully  
filthy that if found in the States would  
be quickly called in and destroyed.

While the money in Havana is dis-  
reputable, it is fine compared with  
much in general circulation in the  
provinces. Physicians have protested  
on the ground that it spreads skin di-

#### SLOWING UP IN WINTER

Lack of outdoor exercise, and heavy  
meals in winter disturb digestion. The  
bowels should not be clogged with un-  
digested, poisonous waste matter.  
Foley Cathartic Tablets cleanse the  
bowels without griping or nausea, ban-  
ish biliousness and head aches, bloat-

#### THE HOUSEWIVES' LEAGUE THREATENS THE BAKERS

Toledo, December 4.—The House-  
wives League here today threatened  
prosecutions of several large bakers  
alleged to have lowered weight in  
loaves of bread following the price cut.  
The question taken up by the city of-  
ficials and a thorough probe will be  
made. The cut in bread prices follow-  
ed a campaign of publicity made  
against bakers who kept the cost up  
despite the drop of flour prices.

A city ordinance requires loaves to  
be of uniform weight.

THE UNIVERSAL CAR

### The Ford Coupe

THE FORD COUPE is surely the Salesman's car. Thousands of  
them are bought every year by firms employing traveling sales-  
men. Many firms buy fifty or one hundred at a time, because  
they know, from experience, that the Ford Coupe increases the  
efficiency of the salesmen at a minimum of expense.

Contractors, builders, collectors, solicitors, physicians all find  
the Ford Coupe the most convenient as well as the most econom-  
ical among motor cars. Lowest in purchase price, lowest in op-  
erating costs, and backed by the Ford Service organization—  
coupled with the durability of the car itself—these furnish the  
reasons for the Ford popularity.

Let us send you a copy of "Ford—A Business Utility." It  
tells what other concerns have learned about the Ford in busi-  
ness service. But, better still, let us have your order today. The  
demand keeps growing. Orders are filled in the order as receiv-  
ed—and our allotment is limited a specified number each month.

**FOUR INJURED WHEN CAR HITS STEEL BRIDGE**  
*Three Mercer Brothers and John Shadley Hurt in Auto Accident Sunday.*  
*Two Are In Fayette Hospital and One of These May Lose Sight.*

Three brothers, Frank, Dewey, and Sam Mercer, and John Shadley, of Sabina, were injured Sunday afternoon about two o'clock when their automobile struck the end of the steel bridge over Rattlesnake Creek about seven miles west of this city on the Sabina Washington pike.  
Frank and Dewey are in the Fayette Hospital. Frank received injuries about the face that may cost him the sight of one of his eyes.  
Dewey, who was driving, was pinned beneath the steering wheel and received injuries whose seriousness has not been definitely determined. As far as known no bones were broken.  
The third brother, Sam, had his right shoulder wrenched and he was removed to Wilmington where an X-ray picture will be made. Indications were that the shoulder had been broken.  
Shadley received a severe scalp wound and was painfully bruised but he was able to be removed to his home after medical treatment had been administered.  
According to a Sabina informant the four men had started to this city in a touring car and were approaching the bridge on the slight curve when their car skidded crashed into the steel and cement that forms the end of the structure and then turned over. One of the buses of the Wilmington-Washington transit line was passing and the men were brought to this city.  
The Mercer brothers are sons of Mrs. Laura Mercer, of Sabina, and Shadley is the son of Mr. and Mrs. Charles Shadley, also of Sabina.

**GERMAN COMPANY PRODUCES GEMS BY NEW PROCESS**  
(By Associated Press)  
Amsterdam, (By Mail)—Henry Polak, president of Dutch Diamond Workers' Union, says it is not impossible that a German explosives' firm has discovered how to manufacture diamond artificially, as it claims to have done. The chief difficulty is to obtain an unbelievably powerful pressure under the right circumstances, M. Polak explained. Since it is a manufacturer of explosives which is reported to have discovered the method of making diamonds, he said it was possible that experimenters had succeeded in obtaining the desired pressure.  
M. Polak expressed some doubt as to whether diamonds could be manufactured artificially at less than the cost of mining them.  
It was recently announced in Berlin that a dynamite company of Hamburg had obtained the patent for the manufacture of diamonds and was in a position to produce several hundred carats daily at a cost less than the present world price for the natural stones.

**TURK AGED 146 KICKS ON TEETH**  
Constantinople, (By Mail)—Turkey's 146 year old man, Zora Mehmed reputed to be the oldest man in the world is ill with indigestion. This is the first time Zora has been ill. He complains that it is because of a set of false teeth.  
Zora has always been a hamlet, that is a carrier of heavy weights, ranging from 200 to 1,000 pounds. When he was 45 years of age, that is during the Napoleonic wars, he tried to lift, on a bet, 500 pounds with his teeth and ruined them. He went along until about 1850 without any teeth and then he obtained a set which has worn out. About 20 years ago, he got another set. He claims these teeth have given him indigestion which has finally landed him in the hospital.  
"When I get a new set of teeth, I shall be all right again for another half century," he said.  
Until his present illness, Zora was employed, as a hamlet, at the Turkey naval base. He was born at Bitlis, in Turkish Armenia in the year 1774, just before the American revolution but does not remember that event. Zora has a son aged 90 and a young daughter aged 50. His heart and eyes are still good and he looks like a man of 70. He offers his passport as a proof of his age, as well as the birth records in the mosque at Bitlis.
